

Code	Title
93028	Echocardiographic Screening of the first degree relatives of the patients with congenital heart disease
93025	Retrospective study of the use of blood, blood products and alternatives in cardiovascular surgeries in Rajaei cardiovascular medical and research center in a 1- year period: Current situation analysis
93029	MENSTRUAL DISORDERS IN CONGENITAL HEART DISEASE
93037	investigation of results agreement between intravascular sonography and angiography in nonsurgical treatment of infantile aortic coarctation
93045	Descriptive study of clinical presentation and Echocardiographic findings among myocarditis patient in Shahid Rajaie Cardiovascular Center in 1388-1392
93049	Designing and construction the myocardial biopsy forceps (Bioptome)
93054	Effects of Tranexamic Acid on Cytokine Profiles in congenital heart surgery in Infants with congenital Cardiac disease at Rajae Heart Center in 1393
93062	The effects of exercise training intensity on cardiac regeneration capacity in rats with myocardial infarction
93065	Pubertal course in children with congenital heart diseases
93066	Revision and evaluation of health system in Rajaie Cardiovascular, Medical and Research Center

Code	Title
94002	Recognition of Porphyromonas gingivalis strains and existence of fimbriae's genes variety in these strains in atherosclerotic plaques and patients' mouth by genotyping and phenotyping methods
94006	Acute and long-term effects of interval and continuous exercise on platelet function and PGI2 and NO inhibitory pathways of platelets in patients with cardiovascular disease
94012	<ul style="list-style-type: none"> •Clinical outcome of Cardiac Hydatid cyst Operation at Rajaei Cardiovascular Medical & Research during the 10 last years
94013	<ul style="list-style-type: none"> • Clinical outcome of Coronary artery fistula Operation at Rajaei Cardiovascular Medical & Research during the 10 last years
94014	<ul style="list-style-type: none"> • Clinical outcome of Coronary artery aneurysm surgery at Rajaei Cardiovascular Medical & Research during the 10 last years
94031	clinical outcomes of percutaneous fenestration closure after fontan procedure
94032	Evaluation of ASD device closure success and complication with large devices(28 and larger)
94038	Survey of thromboelstometry -Based Blood Management on Blood and Blood Components Consumption in combined cardiac surgery
94043	Simulation and Numerical Investigation of pulmonary embolism in both acute and chronic in the pulmonary vessels
94052	comparision of defensive mechanism and brain behavioral system activity between croner diseas and normal people.
94054	Comparing the effect of family centered and patient centered education on Chronic heart failure patient's self care behaviors, quality of life, functional capacity and cilinical out come
94059	Extract the viscoelastic parameters of human saphenous vein and radial artery

Code	Title
94060	Relationship between perceived stress, strategies stress, perceived social support and immunological factors in patients with premature Coronary Artery Disease
94061	Comparison of Spiritual Intelligence and The God Image between People with Coronary Artery Disease (CAD) and People without Coronary Artery Disease
94066	Effects of Low Level Laser Therapy on the complications of Coronary Artery Bypass Surgery
94067	A comparative study of traditional cost system and activity-based-costing method in radiology services and their relevancy to government approved feed. "Cost study shaheed rajaie hospital tehran" 1393
94069	The Effects of Two Different Types of High Intensity Interval Training on Arterial Stiffness, Inflammatory Factors and Lipid Profile in Hypertensive Patients
94071	The study of the safety and effect of high dose allopurinol on the clinical and laboratory variables of severe heart failure patients
94072	The Effect of Octopus Stabilizer on the Heart Characteristics
94073	The study of the effect of high dose allopurinol on the echocardiographic variables of severe heart failure patients
94076	Investigation of Patients' Personal Characteristics and Heath-Related Determinants in Rajaie Cardiovascular Medical and Research Center and their Trends through a 10 years Period

Code	Title
94088	A comparison of TBX-18 gene delivery transfection rate of conjugated grapheneoxide nano sheets (GONS)and Oxide Nanoparticles in Adipose derived and endometrial stem cell toward developing biological pacemaker to use in sick sinus syndrome
94089	Designing right ventricular functional abnormality detection software on MRI images using right ventricle segmentation by a graph based method
94093	Study the Horizontal Equity in utilization of Myocardial Infarction Cares in Iran
94097	Estimation of Organ Absorbed Doses in Patients Following Parathyroid Scans Using SPECT-CT and Monte Carlo Simulation ; a Comparison to MIRD data.
94102	The Evaluation of the Safety of autologous intra papillary muscle injection of bone marrow stem cell in patients with up to moderate ischemic mitral regurgitation: A Phase II clinical trial
94108	The effect of various amounts of heparin on analysis of arterial blood gas (ABG air) in patients undergoing CABG or valve surgery at the Cardiovascular Center martyr Rajai in 1394
94119	investigating the association between addiction and post-operational arrhythmias in cardiopulmonary bypass patients
94123	Impact of last night evaluation on organ protection in cardiopulmonary bypasses surgeries
94125	Comparison of Clopidogrel and Warfarin effects on mid-term Graft Patency after Coronary Artery Bypass Surgery with Coronary Endarterectomy.

Code	Title
95006	The association of perioperative glucose serum levels with pediatric cardiac surgery mortality
95010	Evaluation of non-treated autologous pericardial tissue viability in redo cardiac operations
95015	Efficacy and safety end points of Ranolazine in comparison with conventional therapy in reduction of HbA1c & angina frequency in type 2 diabetic patient with ischemic heart disease. A randomized clinical trial
95017	Safety and efficacy of Ivabradine as a heart rate-reducing agent prior to coronary CT-angiography in progressive heart failure: comparison with beta-blocker
95026	The effect aerobic exercise training with different intensities on cardiomyocyte mitochondrial dynamics and mitophagy system in rats with myocardial infarction: Role of reactive oxygen species(ROS)
95033	Barriers of Patient education in Rajaie Cardiovascular, Medicine and Research Center: patients, nurses and doctors opinions
95034	Effect of preconditioning with short term High intensity interval training on plasma and myocardial klotho levels and myocardial levels of TRPC6 after Ischemia-Reperfusion injury in male Wistar rats
95038	The prevalence multidrug resistant Acinetobacter in the intensive care units of Rajai Heart Center in 2014-16

Code	Title
95039	Relationship Between Behavioral Inhibition and Approach Systems (BIS-BAS) , Emotional Regulation Strategies, and Heart Risk Factors in Patients with Myocardial Infarction
95041	Prevalence of persistent dyslipidemia after statin treatment in patients revascularized with PCI or CABG
95046	Analysis of Relationship Between five personality factors With quality of life and risk factors in patients with heart failure
95056	The relationship between quality reporting of medication errors and to patient safety standards in Rajaee hospital
95059	Evaluation of Efficacy and Safety of Polypill on improvement Clinical signs and Symptoms in patients with Coronary artery diseases
95060	Relationship between NLR and PLR with severity of coronary artery disease in patients undergoing coronary angiography
95066	The prevalence of Coxiella burnetii in patients with culture-negative endocarditis in Rajaie cardiovascular medical and research center
95073	The success and complications of ultrasound-guided venous catheterization
95075	Clinical symptoms, natural history and outcomes of B Thalassemia patient with pulmonary hypertension in Rajaie cardiovascular medical and research center
95078	Study the awareness of parents about their children's congenital heart disease

Code	Title
95084	Surveillance study of vancomycin-resistant enterococci by E-test Method in Shahid Rajaei Cardiovascular Hospital in 2015
95085	The assessment and content analysis of published articles by researchers of Rajaie Cardiovascular Center indexed by ISI and Scopus based on bibliometric and scientometric approaches: First phase of research assessment project of center
95087	Investigation the effect of LV rotational motion on its function based on radial tagging MRI
95092	Evaluation of long term functional capacity and right heart echocardiographic parameters in submassive pulmonary thromboembolism receiving thrombolytic or not
95112	comparison of sarcopenia and its indicators in patients with chronic heart failure and control
95121	rhythm disturbances in pediatric patients with dilated cardiomyopathy
95122	Effectiveness of sex counselling on sexual function in coronary artery disease patients
95124	Determine the average amount of hematocrit and blood transfusion during and after surgery in adult patients undergoing cardiac surgery (valvular and coronary) in Shaheed Rajaei Cardiovascular Medical and Research Center
95129	Accuracy of intera-operative PA pressure measurement
95131	Evaluation of clinical, laboratory and imaging characteristics, of patients with cardiac amyloidosis patients referred to a Rajaie cardiovascular research Center between 1396-1399

Code	Title
95140	Determination of the agreement between non-invasive and standard laboratory methods in measuring serum hemoglobin level
95141	Evaluation of pulmonary complications after cardiac surgery in Rajaei Cardiovascular, Medical and Research center. (risk stratification of pulmonary complication in cardiac surgery patients
95142	Assessment of insulin dependent diabetic patients' satisfaction rating from BAYER® Contour™ Plus blood glucose monitoring performance in Iran during the year of 2017.
95143	International Nutrition Survey 2018
95144	Pre-Operation planning in complex congenital heart Disease using CAD/CAM
95146	Epidemiological evaluation of cardiovascular diseases and related risk factors in Tehran urban district -3 (2017-18)
95151	Continues ambulatory peritoneal dialysis in treatment of patients with refractory heart failure and chronic kidney disease
96002	Association of serum thyroid hormone level and cardiac systolic and diastolic function
96005	Epidemiology and Clinical manifestation of patients with positive Brucella serology admitted to Rajaie Cardiovascular Medical and Research Center since 2002-2016
96009	Differentiation of amiodaron induced thyroiditis subtypes by Tc-sestamibi and Tc-pertecnetate scan

Code	Title
96017	Determination of the efficacy and safety of Valzomix [®] in comparison with Exforge [®] : a randomized controlled non-inferiority clinical trial
96024	Establishing the Department of Biomedical and Health Informatics (BMHI): with Clinical, Research, and Education Objectives and Services
96027	Establishing the Home Care System for Patients with Heart Failure Referring to Rajaie Cardiovascular, Medical and Research Center
96030	Effect of home care program on readmission rate of advanced heart failure patients
96047	evaluation of the renal function in patients with congenital heart disease
96048	An analytical research on Nobilities of military medicine in holy defense based on Dr.E Heydarpour's experience
96049	Determination of the level of mental health and defensive mechanisms in the parents with congenital heart disease children in Rajaie Heart Center in 1396
96050	Evaluation of the clinical outcomes and complications of heart valve replacement in children aged 5 to 18 years old in Rajaei cardiovascular medical center during the last 10 years (1386-1396)
96054	Evaluation of neural improvement in children aged 6 months to 6 years old with congenital heart disease before and after open heart surgery compared with healthy children

Code	Title
96065	Assessment of safety and efficacy of AED (Automated External Defibrillator) designed by Iranian company in an animal study
96069	studying the effects of dexmedetomidine on the clinical outcomes and renal function after cardiac surgery in Rajaie Cardiovascular and Medical Center in the year2017ds
96073	relation between pulmonary arterial dicrotic pressure and prognostic components in heart failure
96074	Heart dysfunction prevalence and response to treatment in adult congenital heart disease patients referred to Rajaie Cardiovascular, Medical & Research Cente
96075	Health Literacy of Cardiac Patients Referring to Adult Clinics of Rajaie Hospital And its relation with Adherence to treatment
96076	Study of occupational stress in the nursing group of Shahid Rajaei Cardiology and Research Center
96077	Evaluation of causes of surgical case cancellations in Rajaie Cardiovascular, Medical and Research Center in 1397
96080	Evaluation of safety and efficacy of bioptom (endomyocardial biopsy device) made by Iranians by animal study
96081	Data Registry of acute decompensated Heart failure,RASHF registry

Code	Title
96083	Investigating factors affecting the quality of life of children and youth with congenital heart disease
96084	Investigating the reasons for not receiving rehabilitation services at the Shahid Rajaei Cardiology and Research Center
96087	Design, Development and Implementation of national diagnostics and procedures classification system for cardiovascular diseases
96089	Evaluation Of Incidence Of Hemorrhage In Patients After Coronary Angiography Through Femoral Artery And It's Association With Related Factors
97000	Evaluation of fungal infections in pediatric with congenital heart disease who hospitalized in intensive care unit of Shahid Rajaei Hospital during 1397-99 and determination of their antifungal susceptibility pattern to common antifungal agents in vitro.
97006	Comparison of fast versus ultraslow infusion of thrombolytic in patients with mechanical prosthetic valve thrombosis.
97013	The Effect of Advanced Hemodynamic Monitoring on the Time of Exit of ICU in Patients undergoing Heart Surgery with Moderate to Severe Left Ventricular Dysfunction in Shahid Rajaei Heart Center
97014	Prevalence of anemia in patients undergoing cardiac surgery in Shahid Rajaei Heart Center and need for transfusion of blood during operation with regard to hemoglobin level

Code	Title
97019	Determining the Rate and Causes of Deductions in Patients Admitted to Shahid Rajaee Cardiology and Research Center for Research and Therapy in 1396 and providing a solution for its management
97036	perception of hypertension and its Relationship with adherence to treatment in elderly patients hospitalized in internal wards of Rajaie Cardiovascular Medical and Research Center in 1397
97043	Nutritional risk assessment in the critical care settings of Rajaie heart hospital from December 2018 to July 2019
97054	Developing and testing bio-psychological model of quality of life explanation in children with congenital heart disease: study of psychological and neurodevelopment factor's role
97061	Effect of High Intensity Interval Training (HIIT) with Blood Flow Restriction (BFR) on cardiovascular function of Cardiotoxic patients after Breast Cancer therapy(pilot study)
97064	comparative study of Efficacy Ferric carboxymaltose versus Iron sucrose in Aneamia correction /impact on Transfusion Requirements in cardiac surgery
97067	The impact of enhanced recovery after surgery protocol on clinical outcomes and complications after coronary artery bypass graft (CABG) surgery in adult patients of Rajaie heart hospital.
97069	Assessment the dental health of children with congenital heart disease

Code	Title
97077	National project of the ethical indexes in the publication of research works in approved scientific journals by the Ministry of Health and Medical Education
97080	Investigating the effect of communication skills training on improving the performance of security personnel
97081	of quality and quantity of sleep in heart failure patients hospitalized in CCU of Rajaie hospital
97084	Study of complications in bridging saphenous vein harvesting versus conventional techniques in patients undergoing coronary artery bypass
97085	Frequency of vitamin D deficiency in children with cardiomyopathy referring to Rajaie hospital during the second six months of 1397 and its relation with related factors
97086	Comparative study of general anesthesia and sedation on arterial blood gas parameters in pediatric patients undergoing angiography
97087	The effectiveness of resiliency components education by social workers in patients undergoing CABG on their resiliency.

Code	Title
97092	The effect of discharge education on regular visits of cardiac patients to Rajaie hospital clinics
97093	development of cardiovascular research and technology road map in rajaie cardiovascular medical and research center
97098	The effect of educational film on anxiety and quality of life in patients undergoing heart valve surgery
97101	Frequency of Menstruation and Vaginal bleeding in women undergoing cardiac surgery and its Relation on postoperative vaginal bleeding in Rajaie Hospital, Tehran.
97103	Rlvoraxaban Safety and Efficacy in patients with Mitral Stenosis (RISE MS)
97107	Evaluation of diagnostic value of Echo in PAP,PVR and PCWP estimation in prim pulmonary PH secondary to in Lt to Rt shunt in pediatrics, a comparison with cathetrisism
97109	Comparison of complications of coronary angiography by radial and femoral during angiography and recovery in Rajaie Hospital

Code	Title
97110	Assessment of Tracheal tube for oxygenation and guided during percutaneous dilated tracheostomy (PDT)
97111	Anesthetic Management and postoperative outcome of heart transplant operation in Rajaie cardiovascular center from 1393-1398.
97121	Assessment of early cardiotoxic complication of doxorubicin containing regimens in breast cancer patient.
97130	Frequency of Reoperation due to Bleeding and related factors after Adult Cardiac Surgery at Rajaie Heart Center
97133	frequency of heart transplantation rejection rate and its related factors in pediatric patients who receive heart transplant in Rajaie Cardiovascular. Medical and Research Center from 1392 till 1397
97135	The effect of post-discharge telephone follow-up about the correct usage of anti-platelet drugs on treatment adherence and MACE in patients undergoing PCI: a quasi-experimental study
97136	Comparison of vitamin D3 level in nurses who work at radiologic wards vs other wards in RHC
97140	Relationship between social capital and mental health in patients with heart failure in Rajaie Cardiovascular Medical and Research Center

Code	Title
97141	The study of the problems of the process of tracking medical records in the second quarter of 1398 in Rajaie Cardiovascular, Medical and Research Center
97142	Association between maladaptive cognitive schema with anxiety, depression and cardiovascular risk factors in patients with coronary artery disease (CAD)
97145	comparison of myocardial strains with different degrees of iron overload in patient with b thalassemia using feature tracking CMR
98009	A Phase III, randomized, two-armed, parallel, double-blind, active controlled, non-inferiority clinical trial to compare efficacy and safety of test-liraglutide (CinnaGen, Iran) to innovator liraglutide product (Victoza®, Novo Nordisk, Denmark) in patients with type II diabetes (T2D).
98010	Assessing satisfaction and compliance with service recipients' rights in Rajaie Cardiovascular, Medical and Research Center by artificial intelligence
98015	comparison study of the effect of using Fresh Frozen Plasma versus Albumin in CPB priming solution on oxidative stress and inflammatory response in congenital cardiac surgery for correction of tetralogy of Fallot
98016	Comparison of the reduction in need for opioid after cardiac surgery in infusion of dexmedetomidine alone and in combination with paracetamol
98021	Evaluation of the risk factors of mediastinitis in patients undergoing cardiac surgery from March 2018 to March 2019 in Shahid Rajaee Heart Center
98025	Valeo Stenting in vascular stenosis in children with congenital heart diseases: Outcome and follow up

Code	Title
98027	Variety of pulmonary cardiovascular complications in patients with substance use disorders Referring to Rajaie Cardiovascular, Medical and Research Center in 1398
98042	Nutritional Assessment and Designing a Nutrition-Based Program for Managing Malnutrition in Children Under 2 Years with Asyanotic Congenital Heart Disease and Pulmonary Hypertension
98070	The association of pm 2.5 pollutant level with coronary calcification in outpatients referred for coronary CT in Tehran residents in 1398-1399
98073	Effect of Goal Directed Hemodynamic Management in Patients with Low Ejection Fraction using Cardiac Index on Early Outcomes after Cardiac Surgery.
98075	Study of patient knowledge on warfarin food and drug interaction in rajaee heart hospital in 2020 winter
98077	Compilation of job description and requirements in Rajaee Cardiovascular medical& Research Center
98096	Cardiac STRESS CMR findings among the patients with coronary slow flow phenomenon
98103	Efficacy of dressing derived amniotic membrane in the treatment of Cardiac surgery incisions
98114	comparison of the effects of respiratory muscle training with exercise rehabilitation and standard medical treatment on exercise capacity and cardiopulmonary exercise test values in patients suffering from heart failure in Shahid Rajaei Heart Hospital, Tehran, in the year 1398

Code	Title
98115	Clinical Evaluation of NTH48i Holter monitoring device producing by Nik Teck
98116	Clinical Evaluation of ECG Holter Monitoring Produced by Fan-Yar Teb
98117	Clinical evaluation of NS1 electronic stethoscope
98121	Relation of outcome with the pattern and location of myocardial fibrosis in CMR in non-ischemic dilated cardiomyopathy in Rajaei Heart Hospital
98126	Relationship between the distance traveled in the 6 minute walk distance indexed with height and peak VO2 in the cardiopulmonary test (CPET) in patients with heart failure by reduced EF in Shahid Rajaei Heart Hospital, Tehran, in the year 1398
98138	Nurses' awareness of palliative care for patients with advanced heart failure at Rajaie Cardiovascular Medical and Research Center in 1399-1999
98141	Prospective evaluation of adaptation between cardiac imaging findings and pathology in discriminating patient with benign versus malignant cardiac mass
98143	Effect of Respiratory Exercise on Six-Minute Test Results Before Mitral Valve Surgery
98145	The relationship between cognitive disorders and quality of life before and after surgery in adult heart surgery at Shahid Rajaei Cardiovascular Center

Code	Title
98149	Handling protocol of advanced heart failure patients
98157	Standards of service and documentation developing for heart failure patients referred to Rajaie heart hospital
98159	Comparison of strain parameters in Echocardiography with cardiac MRI in patients with arrhythmogenic cardiomyopathy
98161	Targeted NGS approach for genetic investigation in non-ischemic dilated cardiomyopathy with fibrosis
98162	Comparison of CMR and echocardiographic finding in rheumatoid arthritis and lupus erythematosus in patients referred to Rajaie Hospital from Firoozgar hospital, March 2020 to February 2021
98171	Association study between rs599839 polymorphism with premature coronary artery disease
98172	lung diffusion capacity in advanced heart failure relation to central haemodynamics and outcome
99000	Cardiac findings in hospitalized CoVid-19 patients
99001	Efficacy of Aroma Therapy with Essential Oils on Recovery of Olfactory Perception in Patients of COVID-19

Code	Title
99004	Anxiety and Knowledge assessment and lived experiences of families who have patients with COVID 19 hospitalized in selected medical centers
99005	Evaluation of the performance of artificial intelligence in the assessment of chest CT images of patients with acute lung inflammation (pneumonia) for the differential diagnosis of corona virus disease (covid-19) from other pneumonia-related diseases
99008	Evaluation of imaging patterns of involvement on chest CT scan of new corona virus pneumonia patients and their relationship with clinical and lab findings in rajaei cardiovascular medical and research center
99009	epidemiological characteristics and Outcome of covid 19 in Iranian Peritoneal Dialysis patients during The covid19 outbreak in Iran
99014	The relationship between blood lead levels and Coronary Heart Disease
99015	Cardiovascular manifestation of COVID-19- a case series.
99016	Evaluation of the Relationship between Cardiovascular Risk Factors and COVID-19 infection rate in HAMRAH Cohort Study
99017	The association between perceived stress and cardiac arrhythmia
99019	Comparison of clinical outcomes of rivaroxaban versus warfarin following Fontan surgery in children

Code	Title
99020	Epidemiologic characteristic of COVID 19 patients in Rajaie Cardiovascular Medical and Research Center at the first 6 months of epidemy
99024	Myocardial injury assessment in recovered COVID19 patients referred to Rajaie Hospital for CMR Study
99028	Evaluation of clinical, electrophysiology, echocardiography, cardiac magnetic resonance, genetic and radiomix findings in patients with arrhythmogenic cardiomyopathy
99030	Evaluation of chest computed tomography scan findings in patients diagnosed with new coronavirus pneumonia admitted in the intensive care unit: a multi-centric study
99032	Comparison of the bi-ventricular cardiac MRI-derived strain parameters in patients recovered from new coronavirus infection without underlying cardiac disease, with normal individuals and determination of their correlation with primary pulmonary involvement severity: a medium-term follow-up
99033	Deep learning analysis of radiologic images in COVID-19 patients - A multicenter study
99049	Evaluation of Educators and learners' satisfaction with virtual education in the epidemic course of covid 19 virus in Shahid Rajai Cardiovascular Center
99052	Evaluation of the outcomes of medical treatment, surgery and pulmonary artery angioplasty in the patients with chronic thromboembolic pulmonary hypertension (CTEPH) in shahid rajaei heart hospital during the years 1388 to 1399

Code	Title
99060	Effect of intermediate dose prophylactic anticoagulation and statin in critically-ill patients with COVID-19 – A 2x2 factorial design randomized controlled trial
99063	Evaluation of short-term clinical outcome and complications of complex ASD Device closure in Rajaei heart center from 2013 to 2020
99069	Comparison of clinical outcomes of patients with hypertrophic cardiomyopathy with and without coronary muscle bridge from 83 to 99 in in Rajaei Cardiovascular medical and research Center
99070	Comparison of alcohol septal ablation outcomes with myectomy in patients with hypertrophic cardiomyopathy
99071	Clinical results of patients with hypertrophic cardiomyopathy from 1382 to 1398 in Rajaei Cardiovascular medical and research Center
99072	Establishment of “Sports cardiology discipline” in Rajaie Cardiovascular Medical & Research Center
99073	outcomes of warden procedure in partial anomalous pulmonary venous connection
99074	Evaluation of the Reliability and Validity of a Questionnaire of Satisfaction and Usefulness of Virtual Education from the Perspective of Cardiovascular Specialist Assistants in the Covid 19 Period Course

Code	Title
